

Peachtree Vascular Specialists

*Left: Alan Levy, MD, FACS;
Right: Daniel T. McDevitt, MD, FACS*

Peachtree Vascular Specialists, P.C. is metro Atlanta's largest vascular and interventional radiology group. Drs. Daniel McDevitt and Alan Levy have assembled a team of seven physicians, a physician's assistant and a nurse practitioner who are experts in their fields of venous and arterial disease. They understand the pain and frustrations often associated with healthcare and do their best to alleviate the concerns by treating each individual with care and respect. In 2015, PVS opened a state-of-the-art Office Based Procedure Lab at their Stockbridge location. This provides outpatient treatment options within their office, offering patients a convenient, comfortable, and safe alternative to a hospital setting.

Peachtree Vascular Specialists have two office locations in Decatur and Stockbridge to serve you. Our physicians are affiliated with Piedmont Henry Hospital, Southern Regional Medical Center, and DeKalb Medical Center.
